Before investing you should carefully consider the fund's investment objectives, risks, charges and expenses. This and other information is in the prospectus. A prospectus may be obtained by visiting sp-funds.com or calling (425)-409-9500. Please read the prospectus carefully before you invest.

Investing involves risk including loss of principal. Please visit each fund's page for specific fund risks. Diversification does not ensure a profit or protect against loss in declining markets. As with all ETFs, Fund shares may be bought and sold in the secondary market at market prices. The market price normally should approximate the Fund's net asset value per share (NAV), but the market price sometimes may be higher or lower than the NAV. The Fund is new with a limited operating history. Islamic religious law commonly known as Sharia has certain restrictions regarding finance and commercial activities permitted for Muslims, including interest restrictions and prohibited industries, which reduces the size of the overall universe in which the Fund can invest. The strategy to reduce the investable universe may limit investment opportunities and adversely affect the Fund's performance, especially in comparison to a more diversified fund. Recently Organized Fund Risk: The Fund is a recently organized, non-diversified management investment company with a limited operating history. As a result, prospective investors have a limited track record or history on which to base their investment decision. There can be no assurance that the Fund will grow to or maintain an economically viable size.
