

SPTE

SP Funds S&P Global
Technology ETF

About the fund

The SP Funds S&P Global Technology ETF seeks to track the performance, before fees and expenses, of the S&P Global 1200 Shariah Information Technology (Sector) Capped index which is designed to measure members of the S&P Global 1200 Shariah that are classified within the GICS® Information Technology sector, incorporating a constituent and country cap. As of April 30, 2024, the Index was composed of 99 constituents, representing investments in fifteen foreign countries, and had a mean market capitalization of 118 billion US\$.

Why SPTE ETF?

- SP Funds S&P Global Technology ETF seeks to provide exposure to global technology companies through large and mid-cap stocks. The fund invests in the index with companies that leverage leading new technologies.
- Across all sectors, innovation is a key engine of growth that is creating long-term wealth – and it is accelerating.
- This offers a unique growth exposure with unique risk profile by investing in rapidly evolving areas of the economy such as e-commerce, cloud computing and health care. •Sharia-compliant: The fund is composed in accordance with Islamic law as agreed upon through AAIOfII principles, which excludes non-Islamic businesses and screens out the companies with higher leverage and non compliant income.
- Exogenous shocks (such as the pandemic and the Russia-Ukraine war) appear to be providing catalysts to drive the adoption of new technologies, which this fund can tap into.
- The opportunities to invest in a Sharia-compliant way are increasing, supported by strong demand from Muslim and non-Muslim investors for its ethical foundation, sustainability and social responsibility.
- Has an MSCI ESG Fund Rating of AA, with 74% of the fund's holdings receiving an MSCI ESG Rating of AAA or AA (ESG Leaders) and 0% receiving an MSCI ESG Rating of B or CCC (ESG Laggards), ranking higher compared to the peer group, in the 98th percentile within the global universe of approximately 34,000 funds in coverage.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when sold or redeemed, may be worth more or less than their original cost and current performance may be lower or higher than the performance quoted. Performance current to the most recent month-end can be obtained by calling (425) 409-9500.

Short term performance, in particular, is not a good indication of the fund's future performance, and an investment should not be made based solely on returns. Returns beyond 1 year are annualized.

A fund's NAV is the sum of all its assets less any liabilities, divided by the number of shares outstanding. The market price is the most recent price at which the fund was traded.

About the Firm

At SP Funds, we specialize in helping investors achieve investment goals aligned with their values. With roots in socially responsible investing and fundamental analysis, our ETFs are a reflection of our long-term perspective and highly disciplined approach.

SP Funds is dedicated to offering an ethical approach to investing that avoids companies with significant debt. By adhering to AAOIFI guidelines, we ensure the securities in our ETFs avoid investments in businesses such as tobacco, pornography, gambling and interest-based finance. The end result is a collection of socially responsible investments that are in well capitalized companies.

Our funds are ideal for those who want a diversified portfolio without compromising their personal values. Our ETFs are also especially attractive to those who want to focus on investments with low debt that may hold up better during economic downturns.

Important Information

Before investing you should carefully consider the Fund's investment objectives, risks, charges and expenses. This and other information is in the prospectus. A prospectus may be obtained by visiting www.sp-funds.com/spus.

Diversification does not ensure a profit or protect against loss in declining markets.

As with all ETFs, Fund shares may be bought and sold in the secondary market at market prices. The market price normally should approximate the Fund's net asset value per share (NAV), but the market price sometimes may be higher or lower than the NAV. The Fund is new with a limited operating history.

Information Technologies Risk: *The Index is concentrated in the information technology sector. Market or economic factors impacting information technology companies and companies that rely heavily on technological advances could have a significant effect on the value of the Fund's investments.*

Islamic religious law commonly known as Sharia has certain restrictions regarding finance and commercial activities permitted for Muslims, including interest restrictions and prohibited industries, which reduces the size of the overall universe in which the Fund can invest. The strategy to reduce the investable universe may limit investment opportunities and adversely affect the Fund's performance, especially in comparison to a more diversified fund.

Equity securities, such as common stocks, are subject to market, economic and business risks that may cause their prices to fluctuate. The fund is distributed by Foreside Fund Services, LLC.
